

Facility Information Update

1. Date 12.3.92
2. Reviewer Clairie Ngo
3. Facility Name Solar Turbines
4. EPA ID No. CA0008314908
5. Contact Person Ron Okuda
Agency DHS
Phone # (310) 590-4852

Explain to state agency contact that EPA is interested in assisting the state in addressing high priority facilities first. The following facility was deferred to the state and EPA is calling to get an update on Corrective Action status.

6. Is Corrective Action actively occurring at facility?

YES _____ NO _____

7. What progress has been made to date? _____

Closure Plan - w/ Part B application in 1991
Submit another revised closure
Notice of Deficiency (Jan 15)
B/c they want to convert to generator status ∴ closure plan.

8. If progress is limited, is limitation due to an agency workload problem?

YES _____ Other (explain) _____

If answer to 8. is YES, EPA is interested in pursuing clean-up at this facility and will be issuing a draft h-order on consent. The state agency contact should discuss this with his/her management and ask that they get back to EPA staff member within a few days, if that will be a problem.

County Site Assessment Site Investigation
Define extent of contamination = 20 wells
All tanks removed
Pump & Treat to remove free floating contaminants.
Agency require more investigation to determine off-site contamination.
Investigation / Im
